

SBAC Mission

The Business Advocacy Committee is a working group made up of local business leaders dedicated to enhancing the vitality of Sharonville’s business community by reaching out to businesses to identify opportunities, address needs and create solutions that will retain businesses and foster their continued growth in Sharonville.

SBAC Commitment

The Sharonville Chamber of Commerce and the City of Sharonville’s Economic Development Office have partnered to create the SBAC in order to better understand the needs and issues that impact local businesses. The SBAC is committed to being a resource to businesses by listening and advocating on their behalf.

In doing so, the SBAC hopes to accomplish these four things:

- Be a resource to businesses in Sharonville
- Advocate solutions for infrastructure improvements, workforce development needs, and positive community image to support a strong business environment
- Create a venue for businesses to voice input and opinions to City decision makers
- Engage the business community in policy-making and economic development initiatives that will help continue successful commerce in Sharonville

The SBAC is committed to becoming a resource to businesses by connecting, engaging, and listening to them. Whether it is by connecting to local or state governments to support policy change, workforce development needs, assist with growth/expansion plans or even reporting service problems; the SBAC is available to listen and assist.
