It’s not often that you will see a couple dozen Southwestern Ohio local leaders together in the same room agreeing. That is exactly what happened this past month. Under the leadership of the Hamilton County Municipal League (of which I serve as a Board member) and Cincinnati Mayor John Cranley, city and village mayors, township trustees, police and fire officials gathered at Cincinnati City Hall to protest the continued erosion of local government revenues at the hands of our state elected officials. The impetus for this gathering is a bill (that by the time you read this has most likely been made into law) passed by the Ohio House and now before the Ohio Senate. House Bill 2, under the guise of a municipal tax uniformity bill, will actually have the impact of AGAIN reducing the tax dollars available to local cities and villages to provide necessary local services.

I say again because the State of Ohio, since 2010, while growing state government, has passed legislation that piece-by-piece chips away at the ability of Sharonville and other local governments to effectively provide the same services at the same level that you, the residents and businesses of Sharonville, have come to expect. Through the elimination of the Ohio Estate tax (a position that our city agreed with and continues to agree with) and the reductions to the monetary support from the local government fund, Sharonville has already seen half- to three-quarter of a million dollar annual reductions of income. House Bill 2 will impact our City by another quarter-of-a-million. Other cities, villages and especially townships have been hit even harder by these state decisions.

Let me put into perspective what these losses mean to our city and why these reductions are such a big deal that I spent an afternoon in Columbus imploring our State Senate to think twice about passing House Bill 2. In order for us to feel comfortable that we will have enough road salt to clean our streets each winter, we load our salt bin with 2500 tons of salt. The price of salt more than doubled between 2013 and 2014. It will cost the city of Sharonville an extra $150,000 to buy enough salt to enable our kids to get to school and customers and employees to get to our local businesses. A full-time police officer, with salary, benefits and appropriate safety gear, costs us approximately $100,000 a year.

The message the local leaders of Southwest Ohio and I relayed to the State is stop attacking local government. I believe that the best government is the local government where there is direct accountability to neighbors and businesses that local leaders interact with every day. The State’s continued insistence on making that governance more and more difficult is jeopardizing our city’s ability to provide what you need. I ask you all to join our City and other cities, villages and townships throughout Ohio in letting your individual voice be heard about the value of local government services to you, your families, and your businesses.

The Sharonville Police Department has implemented a powerful new online tool called CrimeReports aimed at improving communications within the community and lowering crime. This crime mapping tool posts information about crimes and incidents that Sharonville police officers have responded to in near real time. The information can be viewed on the City’s website, www.sharonville.org, at www.crimereports.com, or on smartphones with the CrimeReports by Public Engines app.

CrimeReports uses information pulled from the Police Department’s records management system. It is updated daily with information on most crimes reported in Sharonville. The goal of the program is to educate the public about crime in the area, improve information flow and transparency, and to create more two-way dialogue between our department and the citizens we serve.

Crimes including burglary, robbery, theft, vandalism, and drugs are reported on CrimeReports. Some of the more common icons are a “T” for theft; “Q” for quality of life offenses including drugs, disorder, and liquor; an image of a car for traffic incidents; and an “O” for other incidents including arson, domestic disputes, and warrants. Clicking on the icon brings up details about each particular incident. Sex offender data is also on the map so that the public is more aware of sex offender locations.

Users can sign up to receive reports sent to their email. Simply create an account, choose to receive alerts daily, weekly, or monthly and then choose from the list of crime types to individualize the reports. This information will help make people aware of incidents that have occurred in the areas where they live, work, and play.

We also want the public to be comfortable submitting tips because police officers rely on the eyes and ears of the community to help fight crime. To submit a tip you can:

- Call us at 513-563-1147,
- Go online at www.sharonville.org and click on “Report a Concern” or email Officer Price at cprice@cityofsharonville.com.
- Submit your tip to Crime Stoppers by calling 888-352-3040 or online at http://crime-stoppers.us/submit-a-tip/ and scroll to “CLICK HERE.”

By connecting with the community, we hope to form a collaborative relationship and empower those that we serve. Together we can reduce crime and keep Sharonville safe!

The Public Works Department hopes the holiday season brought all residents happiness, joy, and expectations for a prosperous New Year. Residents with live Christmas trees for disposal can call the Public Works Department at 513-563-1177 by Friday to have your tree picked up the next week. Please check our website at www.sharonville.org under brush and special pick up for more information.

Winter has arrived and typically January and February are the two worst months for snowfall and ice storms. The Public Works Department takes a lot of pride to make sure the streets in Sharonville are clean of as much snow as possible and safe for all our residents and workers. The last winter season of 2013-2014 in this area was the second worst season on record for snow accumulation with 41.2 inches of snow compared to our average total of 18.1 inches. As a result of the severe winter season experienced last year and the current shortage of rock salt, the cost of rock salt this year has skyrocketed from $48/ton to as much as $120/ton. The City is working hard to secure an ample stockpile of rock salt for this winter season. Providing Sharonville receives all the rock salt it has ordered along with its current inventory of rock salt, the City’s excellent snow removal process will continue through the end of this snow season. Please review the City’s snow policy to aid us in the snow removal process.

PLOWING

The City is responsible for plowing all dedicated streets. Public Works tries to keep major thoroughfares clear of snow for services such as police, ambulances, fire trucks and emergency equipment. If the major roadways are not passable, these services cannot get out to any resident. Public Works coordinates the snow plowing with emergency service vehicles to ensure that they can safely reach your residence. Consequently, all major thoroughfares (primary streets) are plowed and treated first. When this is accomplished, residential streets (secondary streets) are addressed.

SNOW EMERGENCY

When streets become hazardous as a result of snow and ice, a SNOW EMERGENCY can be declared, as conditions warrant in accordance with City Ordinance 351.19. All vehicles on any street must be removed. Vehicles left unattended on a City street during a SNOW EMERGENCY will be removed by any reasonable means, including towing, and all such expenses will be charged to the owner or person in control of such vehicle. The media - news, radio and television stations, as well as social medias - will announce the information when a SNOW EMERGENCY has been declared and when it has been lifted.

PARKING

When snow is predicted, please park your car off the street whenever possible. Streets then can be plowed and treated much more efficiently. When cars are parked on the street, it is impossible to plow more than one lane.

CUL-DE-SACS

You are encouraged to be patient with the removal of snow from City streets. Large snow removal equipment often makes the full clearing of some of these areas impossible because of limited maneuvering ability. Alternate equipment may then be applied when storm conditions have subsided. Please remove any portable basketball goals from the roadside, as this makes it very difficult for snowplows to maneuver around.

WHY YOU SHOULD NOT SHOVEL YOUR ENTIRE DRIVEWAY BEFORE A SNOW PLOW REACHES YOUR STREET

Snow plows are on fixed angles. The ability to change direction is very limited. Snow plows plow with the traffic flow, so in order to completely plow a street a number of passes must be made in both directions.

The City is NOT RESPONSIBLE for snow that is plowed from the street and is re-deposited in private driveways. Plow operators have very few choices as to where the snow can go. They do not plow snow in your driveway intentionally. PLEASE DO NOT SHOVEL SNOW INTO THE STREET! Depositing of any snow from a private driveway onto a public street is strictly prohibited. Violators are subject to prosecution.
PERSONAL SAFETY
Older residents and those with health problems are reminded to avoid the extreme physical activity associated with shoveling snow.
Stay at least two car lengths behind a snow plow for every 10 mph you are traveling. Never cut in between a caravan of plows clearing a road.
Beware of “black ice” (roads that look wet but actually are glazed with ice). Ramps and bridges freeze first.
Snowmobile and ATV operators are advised to keep vehicles off City streets at all times.

POTHOLES
As a result of winter snow, ice and salt comes the inevitable appearance of potholes and other unsafe conditions. Please notify Public Works of any curb, street, sidewalk or storm drainage problems in the City. The Public Works Department will attempt to correct the safety problems in a timely manner. The number to call is 513-563-1177 or you can visit the City’s website at www.sharonville.org to report potholes.

BRUSH AND CONSTRUCTION MATERIAL PICK UP
The Public Works Department wants to remind all residents that the brush and construction material pick up service continues year round even through the winter months. The only exception is during a snow fall when the department is treating the roads. Please remember to call the Public Works office at 513-563-1177 by Friday NOON to schedule a pick up for the following work week.

RECYCLING
The City has demonstrated its commitment to making recycling a priority in Sharonville by offering curbside recycling to all home and condo owners. If, for some reason, you have not received your 95 gallon recycling container or you want to upgrade to a larger container, please call RUMPKE Recycling Department at 513-851-0122 ext. 5176 to arrange for a delivery of your container. The Sharonville Fire Department continues to offer FREE Interconnected Smoke Detectors and FREE smoke detector batteries to the residents of Sharonville.

What is an interconnected smoke detector and how do they work? A traditional smoke detector is one single unit either wired or battery powered to protect a specific sized area. However, Interconnected smoke detectors provide an earlier warning to fire, because they link together so that when one alarm sounds they all sound. This provides more warning in more places and gives families more time to escape.

You will notice in the picture that a traditional smoke detector (located on top) only alerts one device at a time. This could delay your family’s escape. The new interconnected smoke detector is on bottom and all the devices are going off together. The advantage: time. Time to safely get your family out of harms way.

Manufacturers of smoke detectors recommend that you replace your smoke detectors every 10 years. And as always please check your smoke detectors once a month and change your batteries every 6 months.

**FIRE SAFETY TIPS:**
- In an Emergency call 911
- Have a safe place to meet
- If on fire, Stop, Drop and Roll
- Know 2 ways out of your house
- Practice fire drills (even at home)
- Check your smoke detectors
- Stay low and crawl under smoke
- Check doors: make sure they aren’t hot

Great! Now how do I get one?

The Sharonville Fire Department strives to ensure that every residence in Sharonville has a working smoke detector. The best way that this can happen is for you to check your detector and if it needs to be replaced or the battery is dead, please call the Fire Headquarters at (513) 563-0252 to schedule a time to have this done. Remember that both the smoke detectors and the batteries are FREE.

Dear Residents and Members,

The Sharonville Community Center is a membership-based facility, located at 10990 Thornview Drive in historic Sharonville. The facilities are open to residents of Sharonville, Sharonville Business employees, and to non-residents as well.

The staff of the Sharonville Parks & Recreation Department welcomes you and your family to join our family. We are sure you will find that the facilities, activities and services will fit your many interests and needs.

**Community Center Membership Eligibility**

The City of Sharonville Recreation Department membership system includes a resident pass, business pass and a non-resident pass. We no longer have the term “family” pass but rather now we have a “household” pass. There are now three tiers to the pass system. Tier 1 is a single-person household. Tier 2 is a two-person household and Tier 3 is a household of up to 5 members. Any household with more than 5 members will be charged an additional $10 per person. As in the past, two forms of proof of residency and/or proof of working within the Sharonville city limits will be required to be eligible for a discounted pass. In addition, there is a discount for purchasing a combo pass.
