LITHIUM BATTERY CHARGING SAFETY TIPS

Lithium-ion batteries are found in many everyday devices and systems. The likelihood of them overheating, catching fire, or even leading to explosions increases when they are damaged or improperly used, charged, or stored.

If a lithium-ion battery cell creates more heat than it can effectively disperse, it can lead to a rapid, uncontrolled release of heat energy, known as 'thermal runaway' that can cause a fire or explosion.

Education & Safety Tips:

1. Use the charger specifically designed for the specific type of battery.
2. Avoid charging in thermal extremes and use with a range of 68-77 degrees Fahrenheit.
3. Do not leave batteries plugged in after they are fully charged.
4. Don't overcharge. Keep the charge between 20%-80% before it drops to low levels. Avoid a full charge.
5. Keep device software and firmware up to date.
6. For long-term or seasonal storage, maintain a charge level of half of full capacity.
7. Replace it when necessary.
8. Do not leave charging overnight.
9. Only charge when you can monitor.
10. Do not start charging and leave home with it on the charger.
11. Avoid charging them on soft surfaces.
12. Avoid exposing them to extreme temperatures.
13. Do not dispose of them in the trash.
14. Avoid dropping, denting, or puncturing battery cells.
15. Keep batteries away from anything that can burn.

Lithium-ion batteries power a wide variety of items, from portable electronics like cell phones, laptops, and tablets to larger devices like power tools, children's toys, and e-scooters.

THERMAL FUSE NOW AVAILABLE FOR PATIENTS ON OXYGEN

Do you know anyone on oxygen at home, or who uses a concentrator?

The Sharonville Fire Department has taken on a new program in hopes of reducing the number one fatal cause of fire fatalities, SMOKING.

Smoking in the home, but also candles burning, fireplaces, or cooking on gas stoves with oxygen delivery devices either on their person or simultaneously using with someone else, can cause a person to get burned.

In an outreach program with the State Fire Marshal's Office of Ohio, we are distributing FireSafe Cannula Valves, also known as a THERMAL FUSE. One will go on the oxygen concentrator and another between the nasal cannula and the tubing. This stops fire spread and fire from traveling down the tubing. Call Sharonville Fire Department non-emergency line at 513-563-0252 for more information.

Scan the QR code to watch the introduction to the Firesafe Cannula Valve device.

- Above ground and in-ground swimming pools
- Attached and detached garages
- Building additions
- Building remodeling/alterations
- Decks and porches
- Demolitions
- Driveways (for curb cut/driveway apron work, an additional permit is required from the Public Works Department)
- Downspouts and gutters

After filling out your application, you can either bring it into the office or email it to us at permits@cityofsharonville.com along with your construction plan. A site plan is required for any work on the exterior of the property, if you do not have a site plan, we can provide you with one. Your application will be reviewed in the order received and we generally get back to you by email within 7-10 business days following your submission. After approval, you can pay for your permit (find fee schedule on city website) then you will receive a certificate and approved plans so you can begin construction.

Permit Questions: Not sure about the zoning for your property or if your project requires a permit? It's always a good idea to call ahead and check with City staff. Call the Community Development Department.

STORM WATER INFORMATION REGARDING GUTTERS AND DOWNSPOUTS

Questions and complaints arise regarding storm water being directed onto neighboring properties in single-family residential areas of Sharonville. There may be specific requirements associated with gutters and downspouts on residential buildings, both residences and accessory buildings, such as detached garages over 600 square feet.

Sharonville construction regulations require that all new residential buildings and residential accessory buildings over 600 square feet be equipped with gutters and downspouts. There is a tiered requirement system for all drains, gutters and downspouts to be connected to a storm water storm sewer.

1. All gutters and downspouts should be connected to storm sewers.
2. If storm sewer is not available, gutters and downspouts should be connected to the street gutter (Figure 1). New and replacement downspout connections to street gutters require a permit from the Sharonville Public Works Department.
3. If connection to the storm sewer or street gutter is not possible, the gutters and downspouts may discharge into the natural drainage area of the lot where the residential building is located. Natural drainage areas of single-family residential lots, referred to as drainage swales (Figure 2), typically run alongside and rear property lines and measure 10 feet in width, measuring approximately 5 feet on each side of the property line. In no case should the downspout discharge be any closer than 15 feet from a property line.

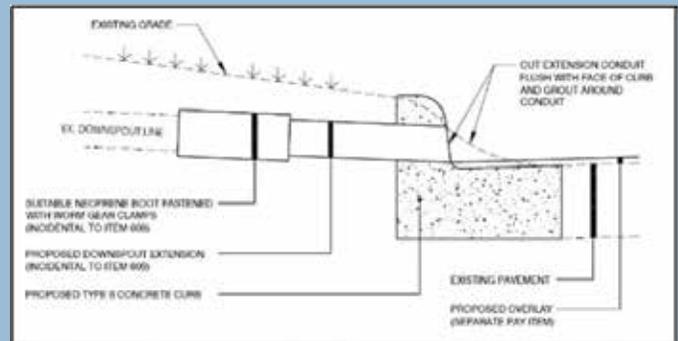

Figure 1 - Construction detail of downspout through curb into street gutter.

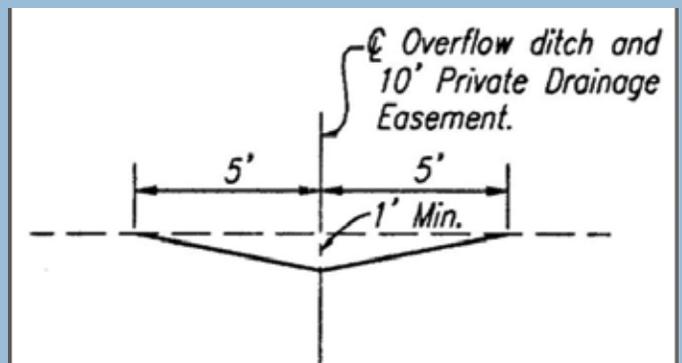

Figure 2 - Cross section of typical residential drainage swale along a common property line.

TAX DEPARTMENT

IF YOU FORGOT TO FILE YOUR SHARONVILLE TAX RETURN

We suggest you file as soon as possible. You can still mail the return, or stop by our office for assistance. Continuing to delay filing will only increase possible penalties. Forms and instructions are available on our website.

EXTENSION DUE DATE

All local tax returns with a Federal extension automatically have an extension for your Sharonville tax return and are due by October 15, 2025. Please attach a copy of the extension with your return. The extension only extends the time allowed to file your tax return; it does not extend the payment due dates.

ESTIMATE TAX DUE DATES

Invoices will be sent this year for the 3rd and 4th quarter payments which are due on **September 15, 2025** and **January 15, 2026**. Failure to pay at least 90% of your 2025 tax liability by January 15, 2026 may result in a 15% penalty.

WHY DO I HAVE TO PAY ESTIMATE PAYMENTS?

All federal, state, and local taxes are due during the year that income is earned. Most companies withhold federal and state taxes from your paychecks, but they may not withhold local income taxes, or may withhold less tax than our 1.5% rate. If a taxpayer reasonably expects to owe \$200 or more due to not having at least 1.5% local tax withheld they need to make estimate payments or may be charged penalties. If you owe less than \$200 but still wish to make estimate payments please note this on your tax return.

EXPECTING A REFUND?

Refunds are processed in the order received. You should expect a check to arrive within 90 days.

Supervision & Guest Policy

Community Center & Aquatics Facilities

*Guest Fee is \$5 per Person

Our goal in this policy is to accommodate our members as best as we can, without creating a potentially unsafe or unfair usage of the facility.

- Members age 10 & over may enter the Community Center or Pool by themselves. Members under the age of 10 must be accompanied by an adult member, age 18+.
- The fee for a member to bring a guest is \$5.00 per person. Guests ages 2 & under are not subject to a fee.
- Members ages 10 to 17 are permitted to bring no more than 2 guests per day.
- Adult members over the age of 18 are permitted to bring up to 5 guests per day. If the guests are from the same family as the member, they are permitted to bring more than 5.
- Example: An adult member over the age of 18 is bringing their adult daughter, son in law, and five grandchildren from out of town to visit the pool. Since all guests are from the same family as the member, this would be permitted.
- All guests over the age of 18 are required to provide a valid driver's license or state ID to be scanned by our SafePoint system against the National Sex Offenders Registry.
- Members are responsible for the behavior of their guests while they are in our facility. The Recreation Department reserves the right to ban future entry.

FITNESS & WELLNESS

Fitness Center & Track

Our Fitness Center includes cardio equipment and strength equipment for individuals of all abilities, from beginners up to experienced fitness enthusiasts. The 1/12-mile cushioned indoor walking/running track alternates direction daily and features additional fitness equipment in the far corners. The Fitness Center and Track can be utilized by members 13 years of age and older with signed waiver. Members 13 to 17 years of ages are required to complete an orientation prior to using the Fitness Center. Please see a fitness team member to fill out appropriate forms and schedule your orientation appointment. Fitness Center Members ages 18+ need to sign off on a Fitness Waiver.

Fitness Center Equipment Orientations

A fitness orientation is an information session typically 30 -45 minutes in length providing the basics of how to use the weight machines and cardio equipment. Learn how to start, stop and change settings on cardio machines, change seat height and weight selection on machines, and have a discussion of proper form on the weight machines. *Please note: an orientation is not a personal training session. Please speak to the Fitness Staff for more information. Orientations are required for individuals 13-17 prior to working out in the fitness center.

Personal Training

To help our fitness members get on a road to better health and fitness, our fitness team offers personal training sessions free of charge. Sessions are 30-45 minutes in length and scheduled at the convenience of the member(s) and trainer.
